PROFESSIONAL SUMMARY

Software Engineer and B.Tech student at ABV-IIITM Gwalior (Expected 2027) with hands-on internship and project experience building scalable web applications. Strong in React/Next.js, TypeScript, Node.js/Express, REST APIs, PostgreSQL/MongoDB, Docker and CI/CD, with additional experience integrating LLM APIs, RAG pipelines, embeddings and streaming AI interfaces into full-stack applications.

EXPERIENCE

Techronyx Solutions Pvt. Ltd. — Full Stack Developer Intern | Pune, India | Aug 2025 – Nov 2025

- **Component Architecture:** Architected reusable React.js components with atomic design principles, separation of presentation and logic, and consistent prop contracts across production modules.
- **Performance Optimization:** Applied memoization, code splitting and lazy loading to reduce redundant rendering and improve frontend performance.
- **Backend & APIs:** Designed RESTful API endpoints in Node.js/Express with authentication guards, input sanitization and structured error handling.
- **State & Data Fetching:** Used Redux Toolkit and React Query with optimistic updates, cache invalidation and background refetching to keep UI state synchronized.
- **Production Debugging:** Traced frontend-to-database request flows to diagnose and resolve production defects under delivery constraints.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C++, SQL, HTML5, CSS3

Frontend: React.js, Next.js (App Router / SSR / SSG), Redux Toolkit, React Query, Tailwind CSS, shadcn/ui

Backend: Node.js, Express.js, REST API Design, Prisma ORM, Convex, Clerk Auth, JWT

AI / GenAI: LangChain, RAG Pipelines, Prompt Engineering, OpenAI / Gemini / Claude, Embeddings, Pinecone, SSE

Databases & Tools: PostgreSQL, MongoDB, Git, GitHub, Docker, Vercel, CI/CD, VS Code

Coursework: DSA, DBMS, Operating Systems, OOP, Computer Networks, Web Technologies

PROJECTS

ContextOS AI: AI-Powered Project Management Workspace | [Live](#) | [GitHub](#)

Next.js · TypeScript · Express 5 · PostgreSQL · Prisma · Gemini AI · RAG · Clerk

- Built a full-stack AI project workspace with a context-aware assistant powered by Gemini and a RAG pipeline — embedding tasks and documents into a persistent, semantically searchable project memory with SSE-streamed responses.
- Engineered agentic AI actions (assistant creates/updates tasks), document-to-task extraction from PDF/DOCX uploads, and a rule-based insights engine flagging overdue work and project health across Kanban, calendar, and Gantt timeline views.

Creatr: AI Content Platform | [Live](#) | [GitHub](#)

Next.js · Convex · Clerk Auth · LLM APIs · TailwindCSS

- Engineered a full-stack Generative AI content platform on Next.js App Router integrating LLM APIs for AI-driven text/media generation with streaming responses (SSE), prompt templating, and token-aware request handling.
- Implemented OAuth via Clerk and built event-driven analytics pipelines on the Convex backend delivering real-time content insights with live state propagation across clients.

ViewVault: Entertainment Dashboard | [Live](#) | [GitHub](#)

React.js · Redux Toolkit · TMDB REST API · JavaScript (ES6+)

- Engineered a responsive, high-performance movie discovery platform with infinite scroll pagination, multi-parameter advanced filters, and real-time TMDB REST API integration at scale.
- Architected Redux Toolkit state slices with memoized selectors and normalized store structure, achieving a 40% improvement in UI rendering performance.

EDUCATION

B.Tech, Electrical and Electronics Engineering — ABV-IIITM Gwalior, Gwalior, India | CGPA: 7.54/10 | 2023 – 2027

Class XII (PCM) — MSS Public School, Kishangarh, India | 90% | 2021 – 2022

POSITIONS OF RESPONSIBILITY

- **Technical Head, Rotaract Club** — Led full-stack web development initiatives and delivered technical workshops on modern JavaScript frameworks and deployment pipelines.
- **Media Cell Head, EEE Department** — Drove cross-platform digital content strategy and automated outreach workflows, expanding the department's online presence.

ACHIEVEMENTS

- **Semi-Finalist, Smart India Hackathon 2025** — Delivered a production-ready full-stack web solution for a real-world government problem statement among top national teams.
- **Quarter-Finalist, Amazon ML Challenge 2025** — Advanced through competitive elimination rounds applying data-driven problem-solving under time-constrained conditions.
