Summary

Versatile Full-stack Developer with a strong command of Next.js, React, and Node.js. Experienced in building robust, scalable backend systems using **Prisma ORM**, PostgreSQL, and Redis for performance caching. Skilled in designing clean, user-centric UIs with Tailwind CSS, shadcn/ui, and data visualization using Recharts. Proven ability to implement features like secure authentication and efficient CRUD operations in fast-paced, collaborative environments.

Education

- **ABV-IIITM Gwalior** April 2027
Bachelor of Technology in Electrical and Electronics Engineering Gwalior, Madhya Pradesh
- **Maharaja Sumer Singh Public School** July 2022
Class XIIth PCM (Percentage: 90) Kishangarh, Rajasthan

Technical Skills

- **Languages:** C, C++, JavaScript, TypeScript, HTML5, CSS3
- **Libraries/Frameworks:** Next.js, React.js, Redux, Prisma, Express.js, Recharts, shadcn/ui, Tailwind CSS
- **Databases** PostgreSQL, MongoDB, MySQL, Redis
- **Tools/Platforms:** Docker, Git, GitHub, Vercel, Render, Neon, Upstash, VS Code

Projects

- **FinSight – Personal Finance Tracker** | *Node.js, Next.js, Shadcn/ui, Recharts, Prisma, PostgreSQL, Docker, Redis, Tailwind CSS*
 - Engineered a full-stack platform to securely add, edit, and track personal transactions with robust validation.
 - Designed a dynamic dashboard for visualizing expenses with interactive charts and category breakdowns.
 - Integrated a budgeting system with real-time spending insights and automated over-budget alerts.
 - **Live Demo** | **Code**
- **Trendify – E-commerce App** | *Node.js, Express.js, EJS, MongoDB, Tailwind CSS*
 - Built a full-stack shopping platform with dual login for users and product owners using secure auth.
 - Users can register/login, add items to cart, and browse a smooth and responsive product gallery.
 - Owners can add, delete, or update products — instantly reflected across all user-facing views.
 - **Live Demo** | **Code**
- **ViewVault – Entertainment Dashboard** | *React.js, Redux Toolkit, TMDB API, Tailwind CSS*
 - Built an **app** to explore trending movies and shows with search, filters, **infinite scrolling** and API integration.
 - Used **Redux** for efficient state management and designed fallback UI for robust user experience.
 - **Live Demo** | **Code**

Leadership and Technical Engagements

- Built a **Bluetooth**-controlled spider robot with smooth motion and showcased it during tech events.
- Active **Rotaract Club member**, led social drives and volunteered in multiple community service programs.
- Hosted **Korero** event to encourage peer interaction, career discussions, and technical knowledge sharing.

Achievements

- Scored 97.52 percentile in JEE Mains (Top 1 lakh).
- Physics Excellence Award (Top 50 in school).
